

BLACHLY-LANE ELECTRIC COOPERATIVE
Policy 1520

Section: Member and Consumer Relations

Subject: Energy Efficiency Management

I. OBJECTIVE

To encourage the efficient use of electricity.

II. POLICY

- A. BLEC will promote cost effective energy efficiency by assisting members in obtaining rebates for electrical HVAC and water heating equipment, appliances, and home weatherization through the BPA rebate program

- B. BLEC will promote cost effective energy efficiency by assisting members in financing electrical HVAC and water heating equipment, appliances, electrical construction, home weatherization, and electric vehicles and related equipment through our member loan program.

- C. BLEC will promote the use of clean and/or renewable sources of energy through our PNGC portfolio, the BLEC green power and net metering programs.

III. RESPONSIBILITY

Administration of this policy is the responsibility of the Board of Directors and the General Manager.

APPROVED by Board of Directors

Board Chairperson
